IsatPhone

Mobile satellite phone

➔ IsatPhone is Inmarsat's mobile satellite phone service, providing a simple, highly affordable way of staying in touch.

Robust, compact and competitively priced, IsatPhone is ideal for business travellers and personal users who travel or work in areas where local networks are unreliable or non-existent.

Coverage

IsatPhone can be used within Asia, Africa and the Middle East using Inmarsat's latest generation I-4 satellites.

 Service coverage  I-4 EMEA  I-4 Asia-Pacific

This map depicts Inmarsat's expectations of coverage, but does not represent a guarantee of service. The availability of service at the edge of coverage areas fluctuates depending on various conditions.

Leading provider

Inmarsat is the world's leading provider of global mobile satellite communications. We deliver mobile voice and data services to almost anywhere on the planet through the most versatile and reliable satellite communications network in the world.
