

BURUM: AN INDISPENSABLE LIFELINE

THE SATELLITE COMMUNICATION SYSTEM USED FOR MARITIME AND AVIATION SAFETY SERVICES

AREA COVERED BY BURUM GROUND STATION

Every day lives at sea depend on the Inmarsat ground station at Burum that has been operating for more than **30 YEARS.**

5G and essential satellite-based safety services can operate together in the Netherlands.

Inmarsat only uses approximately **25%** of the spectrum in question (3.5GHz), leaving plenty of room for 5G.

INMARSAT IS THE ONLY COMPANY PROVIDING THESE ESSENTIAL SAFETY SERVICES WORLDWIDE FOR SEAFARERS, FREE OF CHARGE.

Every day:

1,600,000 people at sea on

160,000 ships and

13,000 aircraft

worldwide depend on Inmarsat's service and the ground station in Burum for their safety and distress communications.
