

□ FLEET ONE

Stay safe, stay connected with unlimited data

When you've sailed beyond the reach of terrestrial networks such as radio, shore-side Wi-Fi, 4G and 5G mobile broadband and LTE, Fleet One satellite internet capability keeps you online, with basic voice and internet anywhere, any time.

FLEET ONE

Stay safe, stay connected with unlimited data

Fleet One delivers reliable, always-on connectivity to support the demands of near shore fishing industry. Fleet One keeps those onboard connected with guaranteed uninterrupted access to the latest navigation and reporting, safety alerts, emails, SMS and voice calls to ensure you stay on course no matter where in the world you sail. Our maritime antennas are fully tested to endure life at sea and won't let you down.

PAY-AS-YOU-GO
Don't get tied into long-term contracts or complex subscription packages. Fleet One offers complete flexibility with pay-as-you-go monthly subscriptions.

CHOICE OF PACKAGES
Choose from 2 simple packages with unlimited data:

Global Coverage:
One single global rate regardless of the size or location of your vessel.

Coastal coverage:
The perfect regional coverage for coastal sailing/ fishing. with our flexible monthly plans, you'll only pay for what you need, where and when you need it.

STAYING CONNECTED
With Fleet One, you can use the internet and make calls as if you were at home. You can use the standard "plug and play" Ethernet connection for your laptop, or connect your smartphones and tablets via an optional Wi-Fi router to access apps, so you can keep up with the news and sports results while you are away. Fleet One also enables vital assistance with route planning and navigation through weather and chart updates. What's more, it provides peace of mind knowing you can connect to land anytime.

SAFETY SERVICES
Fleet One supports Inmarsat's free '505' safety service, which in an emergency directs a call straight through to a Maritime Rescue Co-ordination Centre (MRCC) – no matter how bad the weather conditions. So you can set sail knowing that your life is in safe hands.

UNRIVALLED RELIABILITY
You can depend on Inmarsat, whatever the weather conditions. We provide the most robust communications links, with average network availability exceeding 99.9%, which is greater than that of any mobile phone provider. The Fleet One terminal is specifically designed for use within the maritime environment. The terminal has been tested and approved to Inmarsat's exacting standards.

FREE MOBILE APP

- Track your location relative to the Fleet One data coverage regions on your smartphone and tablet devices.
- Map-view showing data coverage region and current location
- Audible and visible alerts when inside, leaving, or outside the data coverage region
- Customisable settings for triggering alerts
- Available in eight languages
- The app is available on Google Play and Apple App Store.

EASY INSTALLATION
The Fleet One terminal can be quickly and easily installed and set up on your boat.
