Crafted for seasonal yacht and boat owners cruising around the Americas coastal regions, including the US, Caribbean and South America.

Losing signal and getting a slow data connection can make trying to use your mobile phone frustrating. Then there is the risk of roaming on to another network and coming home to the shock of a large bill.

Fleet One supports Inmarsat’s free ‘SOS’ safety service, which in an emergency directs a call straight through to a Maritime Rescue Co-ordination Centre (MRCC) – no matter how bad the weather conditions. So you can set sail knowing that your life is in safe hands.

You can depend on Inmarsat, whatever the weather conditions. We provide the most robust communications links, with average network availability exceeding 99.9%, which is greater than that of any mobile phone provider.

The Fleet One terminal is specifically designed for use within the maritime environment. The terminal has been tested and approved to Inmarsat’s exacting standards.

Fleet One data coverage regions

In Home Region (voice only)

Out of Home Region (voice and date available - data is charged at a different rate)

SERVICE PROVIDERS

Cobham SAILOR

Spaceon Fleet One*

*Fleet One is supported by Inmarsat’s global network coverage and capability, ensuring you are never out of touch wherever you are.
