FLEET ONE

COASTAL FISHING

FLEET ONE COASTAL

INNOVATIVE SOLUTIONS FOR FISHING

Fleet One Coastal has been designed to meet the specific operational demands of the near-shore fishing industry. It delivers data and voice simultaneously through a compact antenna, with specialised pricing plans and seasonal flexibility.

Access to communications at sea helps with fishing operations such as navigation, route planning and optimisation, fish finding, catch reporting and fisheries e-reporting.

For fishermen, access to low-cost calls and email keeps them in touch with home and boosts morale. They can check the news and sports reports - all while keeping a tight control on costs.

Fleet One operates on Inmarsat's I-4 satellites, which are rigorously tested and proven as the go-to choice for commercial mariners around the world.

SAFETY SERVICES

Fleet One Coastal supports Inmarsat's free '505' safety service, which in an emergency directs a call straight through to

a Maritime Rescue Co-ordination Centre (MRCC) - no matter how bad the weather conditions. So you can set sail knowing that your life is in safe hands.

CONNECTIVITY

The Fleet One terminal has a standard "plug and play" Ethernet connection to a computer, and with an optional wireless router can support smartphones, tablets and additional laptops - allowing multiple users to access the internet at the same time.

UNRIVALLED RELIABILITY

You can depend on Inmarsat, whatever the weather conditions. We provide the most robust communications links, with average network availability greater than any mobile phone provider and exceeding 99.9%.

The Fleet One terminal is specifically designed for use within the maritime environment.

The terminal is quick and easy to install, with additional Wi-Fi capability to allow access to smartphones/tablets as at home.

The terminal has been tested and approved to Inmarsat's exacting standards.

FREE MOBILE APP

- Track your location relative to the Fleet One data coverage regions on your smartphone and tablet devices.
- Map-view showing data coverage region and current location
- Audible and visible alerts when inside, leaving, or outside the data coverage region
- Customisable settings for triggering alerts
- Available in 8 languages
- The app is available on Google Play and Apple App Store.

EASY INSTALLATION

The Fleet One terminal can be quickly and easily installed and set up on your boat.

FEATURES
