Forward-looking statements

Certain statements in this presentation constitute “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements involve risks, uncertainties and other factors that may cause our actual results, performance or achievements, or industry results, to be materially different from those projected in the forward-looking statements. These factors include: general economic and business conditions; changes in technology; timing or delay in signing, commencement, implementation and performance of programmes, or the delivery of products or services under them; structural change in the satellite industry; relationships with customers; competition; and ability to attract personnel. You are cautioned not to rely on these forward-looking statements, which speak only as of the date of this presentation.

We undertake no obligation to update or revise any forward-looking statement to reflect any change in our expectations or any change in events, conditions or circumstances, except where we would be required to do so under applicable law.

  - Leasing: $27.4m (+29%)

**Change**: +13%
Maritime sector

- 16% growth in data revenue driven by FleetBroadband
- Active terminals up 10%
- Over 1,400 FleetBroadband terminals added in Q4, over 5,000 terminals at end of year
- Encouraging progress and contribution from FB 150 service
- Total terminal additions and APRU trends consistent through Q4

![Bar chart showing US$m for Q4 2008 and Q4 2009 for Voice and Data revenue]

Q4 2008: Voice 26.3, Data 56.6
Q4 2009: Voice 25.7, Data 65.5
Land mobile sector

- BGAN key to land sector growth
  - Revenue up 41%
  - Subscribers up 21%
  - 1,707 terminals added
  - ARPU $288 / month

- BGAN voice revenue growth accelerating, now 50% of all land voice

- GSPS service launch on track for June 2010
Aeronautical & Leasing

- Aero revenue up 13%
- Aero active terminals up 10%
- SwiftBroadband
  - Activations ahead of Swift 64
  - Adding over 100 terminals per quarter
  - Fast ARPU growth
  - In-flight passenger services
- Leasing up 29%
- New lease business in Q4 from Aeronautical and Land customers
Stratos – Q4 results

- Inmarsat revenue driven by leasing, Fleetbroadband and BGAN growth
- Other MSS revenue mainly due to equipment sales
- Broadband business improved gross margin and margin on Segment Earnings, from 15% (Q4 2008) to 19% (Q4 2009)
- Operating costs decreases
- Net earnings up
Inmarsat plc – financial summary

- Revenue and EBITDA growth ahead of plan in 2009
- Growth in cash from operations up 22%
- Adjusted EPS up 27%
- Free cash flow $349m, up 54%
- 2009 refinancing reduces cost of debt
- Significant liquidity and operating headroom
Strategy update and outlook

Andrew Sukawatya
Chairman & Chief Executive Officer
2010 priorities

- Further broadband service penetration and service migration to capture higher usage
- Successful launch of handheld GSPS service in June, begin to recapture voice market
- Build direct sales effectiveness through Stratos and Segovia
- Explore new opportunities for future growth
- Develop S-band strategy to capture option value
Maritime terminal activations and revenue trends continue to indicate limited impact of economic slowdown

FleetBroadband now established as a main driver of maritime sector growth – both revenue and terminals

Encouraging early data from FleetBroadband 150

VSAT remains key competitive threat, but FleetBroadband and economic climate restricting further penetration

BGAN growth in subscribers and ARPU, strong Q4

Widespread acceptance of SwiftBroadband among traditional customers and airlines for in-flight connectivity
Impact of global events

- Usage in Afghanistan and Haiti has been a factor in early 2010
- BGAN usage increases over sustained period
- Inmarsat committed to charitable support for Télécoms Sans Frontières in Haiti and Chile
- Events accelerate penetration and adoption of Inmarsat services, long-term benefits
IsatPhone Pro

- Global service launch on track for June – IsatPhone Pro
- 11 distributors recruited and sales training underway
- Strong margin incentive for distributors compared to competitor products
- Expect handset to retail at $500 to $600
- End user market worth at least $350m wholesale revenue
- Reiterate 10% market share objectives within two years of launch
Aero passenger connectivity

- Commercial deployments continue
  - Emirates 68 aircraft equipped
  - Ryanair 50 aircraft equipped
  - British Airways 2 aircraft equipped
  - Other: 14 aircraft equipped

- Strongly positive passenger reception, popular with Blackberry and PED users

- Available on British Airway London to New York service from City Airport

- Afriqiyah
- AirAsia
- Airblue
- Air France
- BMI
- British Airways
- Egypt Air
- Emirates
- Jazeera
- Kingfisher
- Malaysia
- Oman Air
- Ryanair
- Royal Jordanian
- Saudi Arabian
- Shenzhen Airlines
- TAM
- Qantas
- V Australia
- Wataniya
Growth in demand from commercial and government customers is continuing in all markets.

Key broadband services now firmly established and accepted in all customer markets, drives future growth.

Global handheld satellite phone on track for June launch, attractive additional growth opportunity.

On track for continued solid revenue growth in 2010.

Strong free cash flow generation to continue.

Capital expenditure at $160 to $170m, including Stratos.
