Forward-looking statements

Certain statements in this presentation constitute “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements involve risks, uncertainties and other factors that may cause our actual results, performance or achievements, or industry results, to be materially different from those projected in the forward-looking statements. These factors include: general economic and business conditions; changes in technology; timing or delay in signing, commencement, implementation and performance of programmes, or the delivery of products or services under them; structural change in the satellite industry; relationships with customers; competition; and ability to attract personnel. You are cautioned not to rely on these forward-looking statements, which speak only as of the date of this presentation.

We undertake no obligation to update or revise any forward-looking statement to reflect any change in our expectations or any change in events, conditions or circumstances, except where we would be required to do so under applicable law.

Increase: +10.0%
2010 operational achievements

- Commitment to Inmarsat-5 and Global Xpress investment programme to address incremental opportunities
- Handheld strategy implemented with launch of global handheld service, IsatPhone Pro
- LightSquared Cooperation Agreement triggered, realising value after 3 years of work on ATC
- New 5-year growth target for core MSS revenue
- 3-year minimum 10% dividend growth commitment
- Successful year for Segovia, new acquisition
Outlook for 2011

- Confident in growth prospects and 5-year growth target
- Multiple growth opportunities remain ahead
- Material new revenue and profit resulting from Cooperation Agreement with LightSquared
- Near term core business trends will constrain core MSS revenue growth to 2% – 4% in 2011
- Investment programmes on track an unchanged as to expected cost, 2011 capital expenditure at $450m - $550m
- Dividend growth of at least 10%

</table>
Inmarsat plc – net debt

- $644m of available liquidity through cash and bank facilities
- Legacy Stratos debt refinanced in 2010
- New 8-year EIB Facility fully drawn
- New US Ex-Im Bank financing progressing

Group leverage: Net Debt / EBITDA=1.6x
Maritime sector

- Over 10,000 FleetBroadband terminals added in 2010
- Data growth constrained by speed of FleetBroadband take up as traffic re-priced to lower tariffs
- Voice usage impacted by email substitution and increased competition
- Some increasing competition from VSAT as industry reacts to Global Xpress
Land mobile sector

- BGAN up 6% year over year and up 3% sequentially
  - 1,738 terminals added in quarter
  - ARPU steady at $200 per month
  - No identified event revenues

- Lower revenue levels from Afghanistan are being replaced with more BGAN organic growth

- Strong performance from telemetry services

- IsatPhone Pro not yet material to numbers
Aeronautical & Leasing

- Aero revenue up 17.5%
- SwiftBroadband terminal sales strong, our leading aero service
- Lower cost SwiftBroadband 200 developed/launched
- Government aero usage levels down, suppressed by lower regional activity and emerging budgetary constraints
- Leasing revenue impacted by anticipated end of an aeronautical lease and reduced maritime lease
- Leasing pipeline positive
Stratos – Q4 results

- Inmarsat MSS revenues impacted by:
  - Pricing pressure in distribution channel
  - Factors consistent with Inmarsat Global Q4

- Other MSS reduced by lower traffic from other networks

- Growth in Broadband driven by new contribution from Segovia

- Broadband contract disposals affects comparability
Inmarsat plc – financial summary

- EBITDA growth ahead of revenue growth
- Profit before tax up 69% to $333.5m
- Free cash flow up 35% to $470.3m
- Significant cash inflows from Cooperation Agreement
- 2010 dividend increased by 10%, covered 1.6x
- Strong liquidity and low debt leverage
Strategy and operations review

Andrew Sukawaty
Chairman & Chief Executive Officer
2011 priorities – a key year ahead

- Core MSS market initiatives to improve growth rate and continue market leadership
- Develop market proposition for IsatPhone Pro and build on early positive market feedback
- Contract planned capital investments and assemble full team to deliver Global Xpress on budget
- Implement LightSquared Cooperation Agreement to capture new value for shareholders
MSS maritime initiatives

- Consolidate on FleetBroadband’s leading market position
  - New pricing plans to ensure attractiveness relative to VSAT plans
  - Inmarsat-B to FleetBroadband migration promotions to lock-in shipping fleets considering upgrades
  - Communicate future service proposition of integrated Ka and L-band capability
  - Ka-band awareness retains customers

- Respond to voice market changes
  - Develop crew services around data applications to reduce appeal of voice alternatives
  - Develop multi-channel voice capability to improve positioning relative to low-end voice alternatives
MSS land initiatives

- BGAN is growing well, but fluctuates with government user activity
  - Introduce geographic pricing to change value proposition in markets where opportunity large, but existing usage low
  - Penetrate next tier of media and news gathering organisations
- Satellite Low Data Rate
  - New product launches, next stage of SkyWave collaboration
  - BGAN M2M service
- IsatPhone Pro – multiple market strategies
IsatPhone Pro

- Strong positive market reaction to service launch
- Retail handset price from $499, well below competitive offerings
- A number of pricing packages launched
- Strong initial orders and good manufacturing performance, despite global component shortages in early phase
- Not material in 2010, a gradual build ahead
- Migration promotions, service enhancements
- Comfortable with market share objectives
SwiftBroadband now our leading aeronautical product and strong new terminal activations are continuing

SwiftBroadband 200 available to target untapped market opportunity in small business jets

In-flight passenger connectivity remains at an early stage of roll-out but retains significant longer term potential

Continue to support distribution in new commercial service launches and trials

Articulate Ka-band capability to keep strong hold on market opportunity as it develops
The impact of LightSquared

- Phase 1 and Phase 2 now triggered
- Significant new revenue and profitability ahead
- Cash inflows well ahead of accounting revenue recognition and cash costs
- Confident on managing interference and customer impact
- Downside protected

Cash payments received to date:

- Phase 1 = $192.5m
- Phase 2 = $20.1m
- Total = $212.6m

Revenue recognised to date:

- Total = $17.5m
Inmarsat-5 - Global Xpress

- Satellite manufacture underway
- iDirect selected for ground network and core module
- Sea Tel selected for terminal development
- Key personnel appointments
- On track for commercial service in 2013, global service by end 2014
- Strong market interest in service capability and distribution opportunities
Summary

- Another strong year completed, 5-year targets outperformed at revenue and EBITDA
- Retain 5-7% medium term average growth rate target
- New growth opportunities becoming reality, IsatPhone Pro and LightSquared Cooperation Agreement
- Commitment to Global Xpress for incremental market opportunities
- Multiple paths to further growth remain
- Committed dividend growth
